IANLAN NEXTGEN · NAVIGATION REPORT 02

Underground Networks, Bunkers & Rooms

A comprehensive, map-first guide to the Minecraft world’s tunnels, bunkers, vaults, below-grade venues, adult-only hospitality rooms, service spaces, and ways in.

Refreshed 2026-08-22 from the immutable R08AM post · Read-only report · No world edits

READ THIS FIRST

Truth boundary

Three routes are unproven in the current snapshot. The R08AM-bound normal-walk audit passes 19 of 22 representative routes. It does not find a bounded path from the C01 mountain portal to L1, from the MainStreet warehouse drive to the hall, or from the Observatory hidden passage to the inactive portal gallery. They remain mapped as evidence locations, not advertised as current routes.

C01 east surface arrival remains contested. The internal C01 public stair, owner stair, service backbone, and L1 entry-to-garage route pass current geometry checks. Relocation, road, recovered parking, and the sunken surface arrival remain unproven under ISSUE-002.

Raven Rock note. Every interior coordinate in this Minecraft reconstruction is an openly labeled creative approximation. This is a map of the game world, not a representation of the real classified facility.

The Ravensgate restricted underground exclusion is omitted from navigation maps because no authorized access point is confirmed. Inactive portal-gallery rooms are shown only as rooms; no active portal operation is claimed.

Underground navigation records	298	**C01 rooms / graph nodes**	168 / 165
Entrance / access records	27	**Maps / screenshots**	20 / 22
Current representative routes	19 pass	**Current unproven routes**	3

CONTENTS

How to use this atlas

1. World geographic overview
2. Skywalk-style network schematic
3. Raven Rock network
4. Ravensreach / Worker Town
5. MainStreet mountain and logistics
6. Cataloged C01 east stack
7. Westlight below-grade venues
8. Oasis road bunker
9. Iowa / Concord underground
10. Bars, clubs, theatres, adult rooms
11. Evidence screenshot book
12. All entrances and access nodes
13. Complete inventory appendices
14. Current walkability and access-class audit
15. Empty Eight public, staff, and restricted circulation

On geographic maps, north is up and equals decreasing Z. East is right and equals increasing X. Yellow **E** symbols are access points. The “skywalk” diagram follows the wayfinding logic used by Midwestern skywalk maps: connected destinations are emphasized over scale, entry points are a separate symbol layer, and disconnected systems stay in separate boxes.

Reference conventions: City of Des Moines Skywalk GIS (parking, access, skywalk, and route layers) and City of Minneapolis skyway system overview.

SYSTEMS

Nine mapped underground families

Raven Rock / Site R	81 catalog records
MainStreet mountain secure complex	92 catalog records
Ravensreach civic underground	33 catalog records
Gilded Raven / owner corridor	29 catalog records
Cataloged C01 east stack	8 catalog records
Westlight below-grade venues	28 catalog records
Approach-road and oasis bunkers	1 catalog records
Iowa data district / Concord	17 catalog records
Combined Zones / Empty Eight	9 catalog records

These families are not one continuous mega-network. Raven Rock has its own four portals and shaft; the civic library passage is deliberately isolated; the Gilded Raven owner route is private; Westlight and the roadside/data bunkers are separate destinations.

CURRENT ACCESS AUDIT · R08AM POST

Walkable, restricted, sealed, or unproven

The report now separates physical route proof from catalog labels. A **verified walkable** entry passed current immutable-snapshot geometry or exact accepted post-QA. Restricted boundaries are physical connections whose audience remains staff, owner, or adults-only. Sealed entries are not routes. Unproven entries failed the current bounded normal-walk search and are not promoted by older evidence.

CZ-R08AL-PUBLIC-TO-BOH	Public gallery to back-of-house boundary	VERIFIED_RESTRICTED_BOUNDARY	staff/service only	Two marked staff doors at S04 and S09; twelve BOH room doors remain secured	BOH is maintained but non-public.
CZ-R08AL-BOH-SPINE	Empty Eight maintained BOH service spine	VERIFIED_WALKABLE	restricted staff/service	Continuous 372-cell service spine behind twelve secured rooms	No public access or tenant occupancy.
CZ-R08AM-GRAND-STAIR	BOH to lower-annex grand stair	VERIFIED_WALKABLE	restricted adults-only	Seven-wide, 26-step stair from y49 upper threshold to y24 lower landing	Two secured upper doors; entire lower annex is non-public.
CZ-R08AM-LOWER-COMMONS	Lower theatre and private-club common areas	VERIFIED_WALKABLE	restricted adults-only	Grand-stair landing to theatre, restricted corridor, lounge, and cinema	Non-public, non-explicit, unoccupied, and entity-free.
CZ-R08AM-BACKSTAGE-DOOR	Theatre to private-club rear-stage connection	VERIFIED_RESTRICTED_BOUNDARY	restricted staff/adults-only	One secured rear-stage door through the theatre/club boundary	Not a public connection.

ID	Connection	Verification	Audience	Route	Boundary / finding
CZ-R08-EG-B	Empty Eight EG-B passive refuge core	SEALED_UNCOMMISSIONED	none	Lined and illuminated internal core with roof and exterior interfaces closed	No stair, lift, egress, accessible route, or emergency system is commissioned.
CZ-R08-FIRE-SERVICE-SPINE	Empty Eight fire/service spine	SEALED_UNCOMMISSIONED	none	Static floor and containment only	Not a public or fire-service route; external discharge remains closed.
CZ-R09-LOWER-B07	B07 lower pedestrian stair to retained hold	VERIFIED_WALKABLE_INTERNAL_ONLY	bounded inspection	R09B-128-CELL-HALF-STEP-SPIRAL-WITH-R09C-CONTAINMENT	Terminates at a retained upper hold; wet zone, surface opening, lift, smoke, power, and drainage remain closed.
CZ-R09-UPPER-B07	B07 isolated upper circulation segment	VERIFIED_WALKABLE_INTERNAL_ONLY	bounded inspection	91-surface component between the index-20 gravity cap and doorless headhouse hold	No through-route, exterior door, public route, fire-service route, or accessible route.
CZ-R12O-B03	B03 enclosed passive internal circulation	VERIFIED_WALKABLE_INTERNAL_ONLY	bounded inspection	Indices 188..800, 613 stations, ending at the retained Cheyenne cap	Indices 0..187 and every portal-to-route connection remain uncommissioned.
CZ-FUTURE-INTERFACES	Deferred future-line and service interfaces	SEALED_UNCOMMISSIONED	none	Eight future rail stubs plus drainage, fire/service, ventilation, utility, mechanism, and exterior interfaces	No public connection or transport commissioning.

MAP 01 · GEOGRAPHIC

World overview

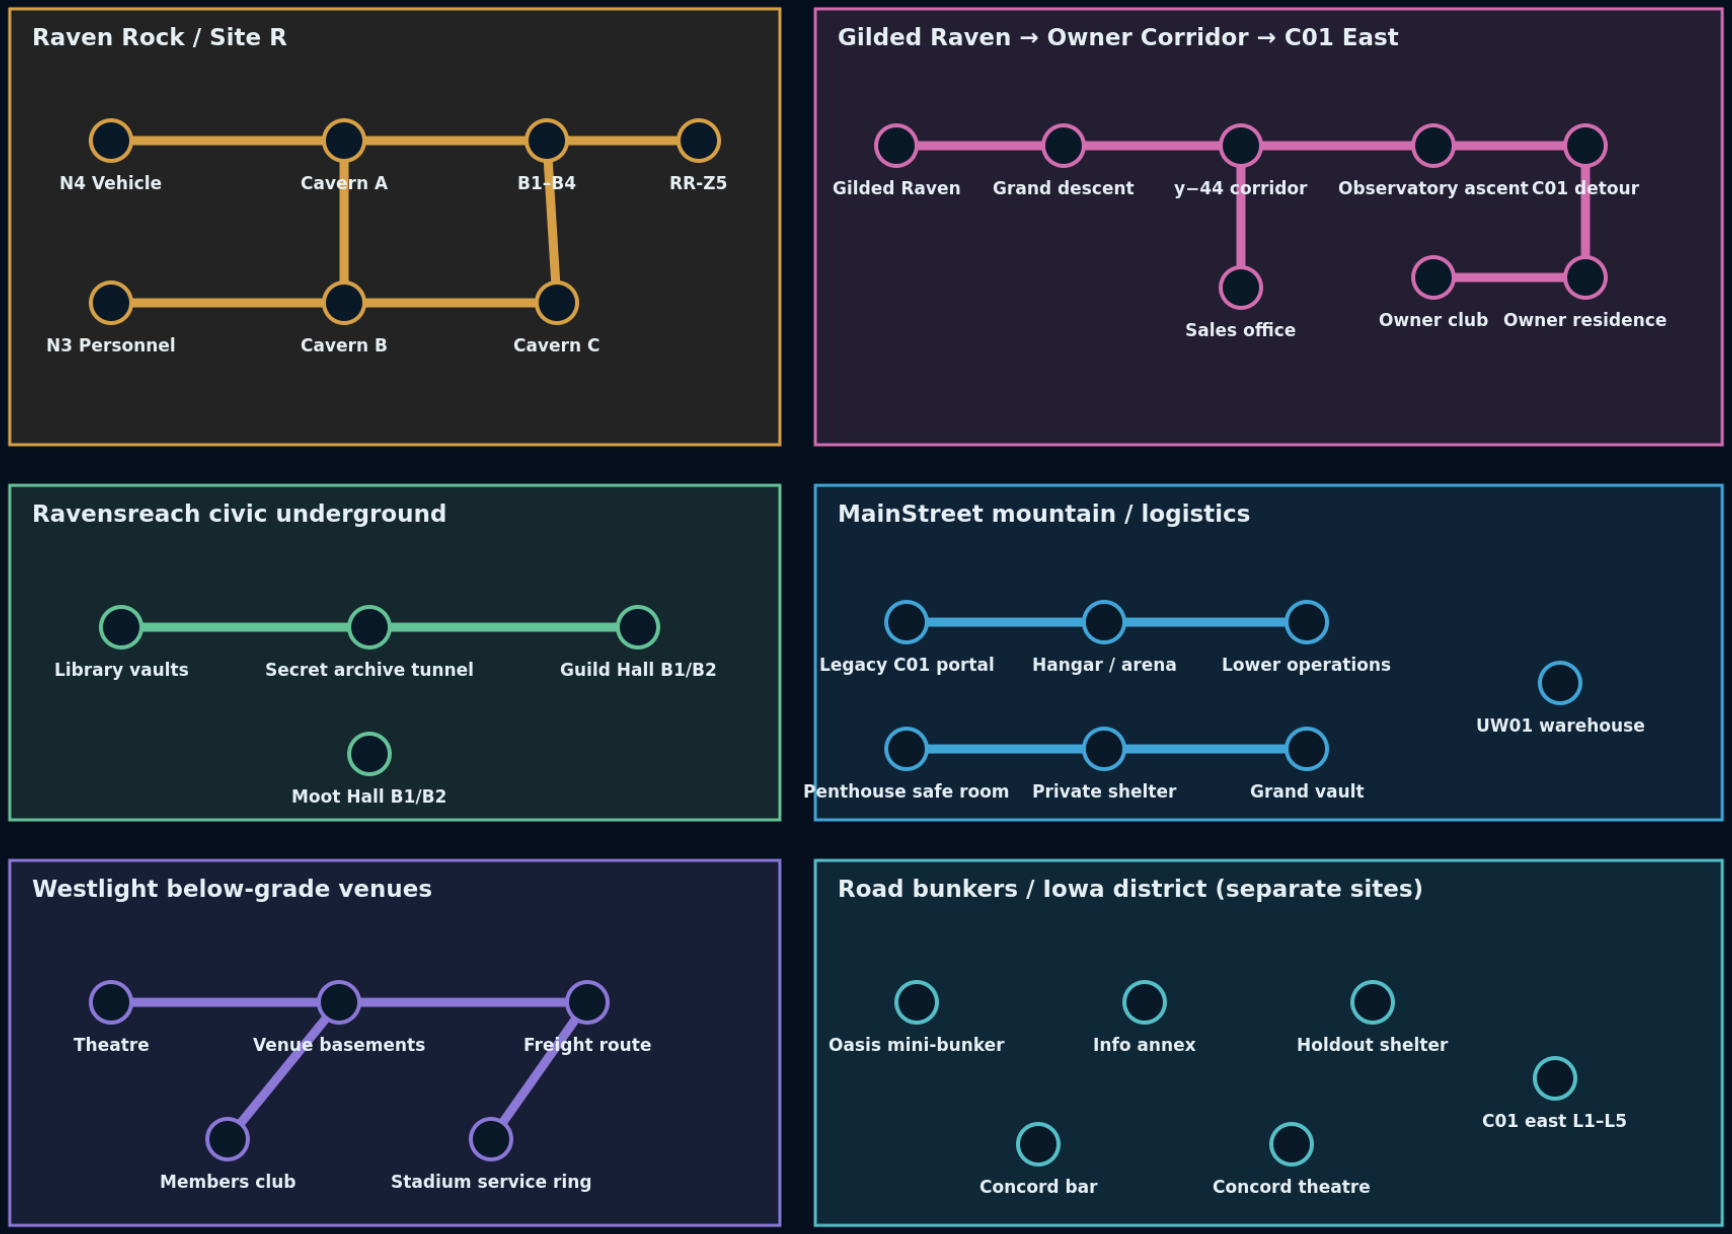

All major cataloged underground systems and access nodes in world coordinates.

MAP 02 · WAYFINDING

Skywalk-style network map

Underground “Skywalk” Schematic

A legibility diagram: connections are topological, not to geographic scale.

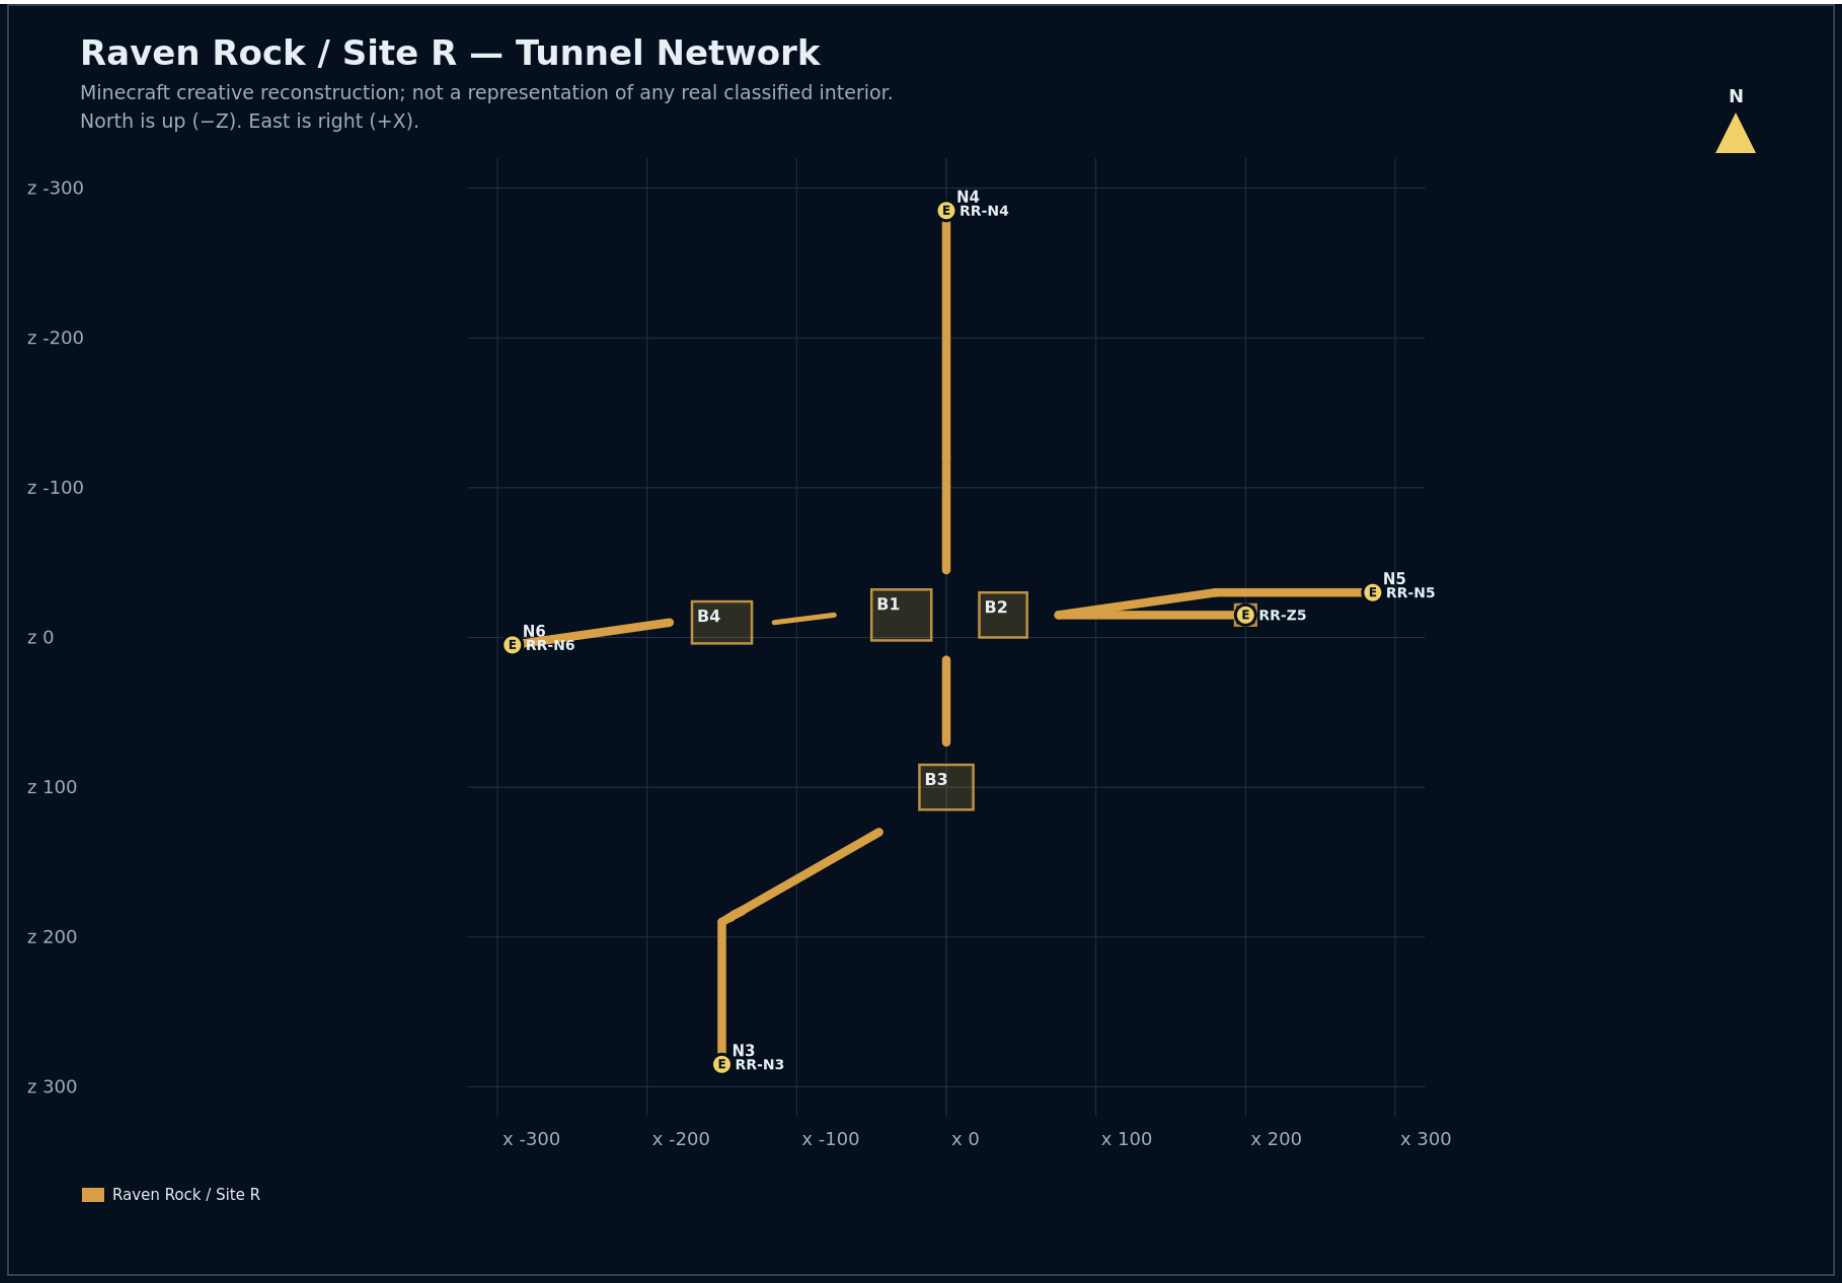

No line between boxes means no verified tunnel connection.

Topological wayfinding view. Position and distance are abstracted; connection state is not.

MAP 03 · RAVEN ROCK

Four portals, three caverns, four buildings, one surface shaft

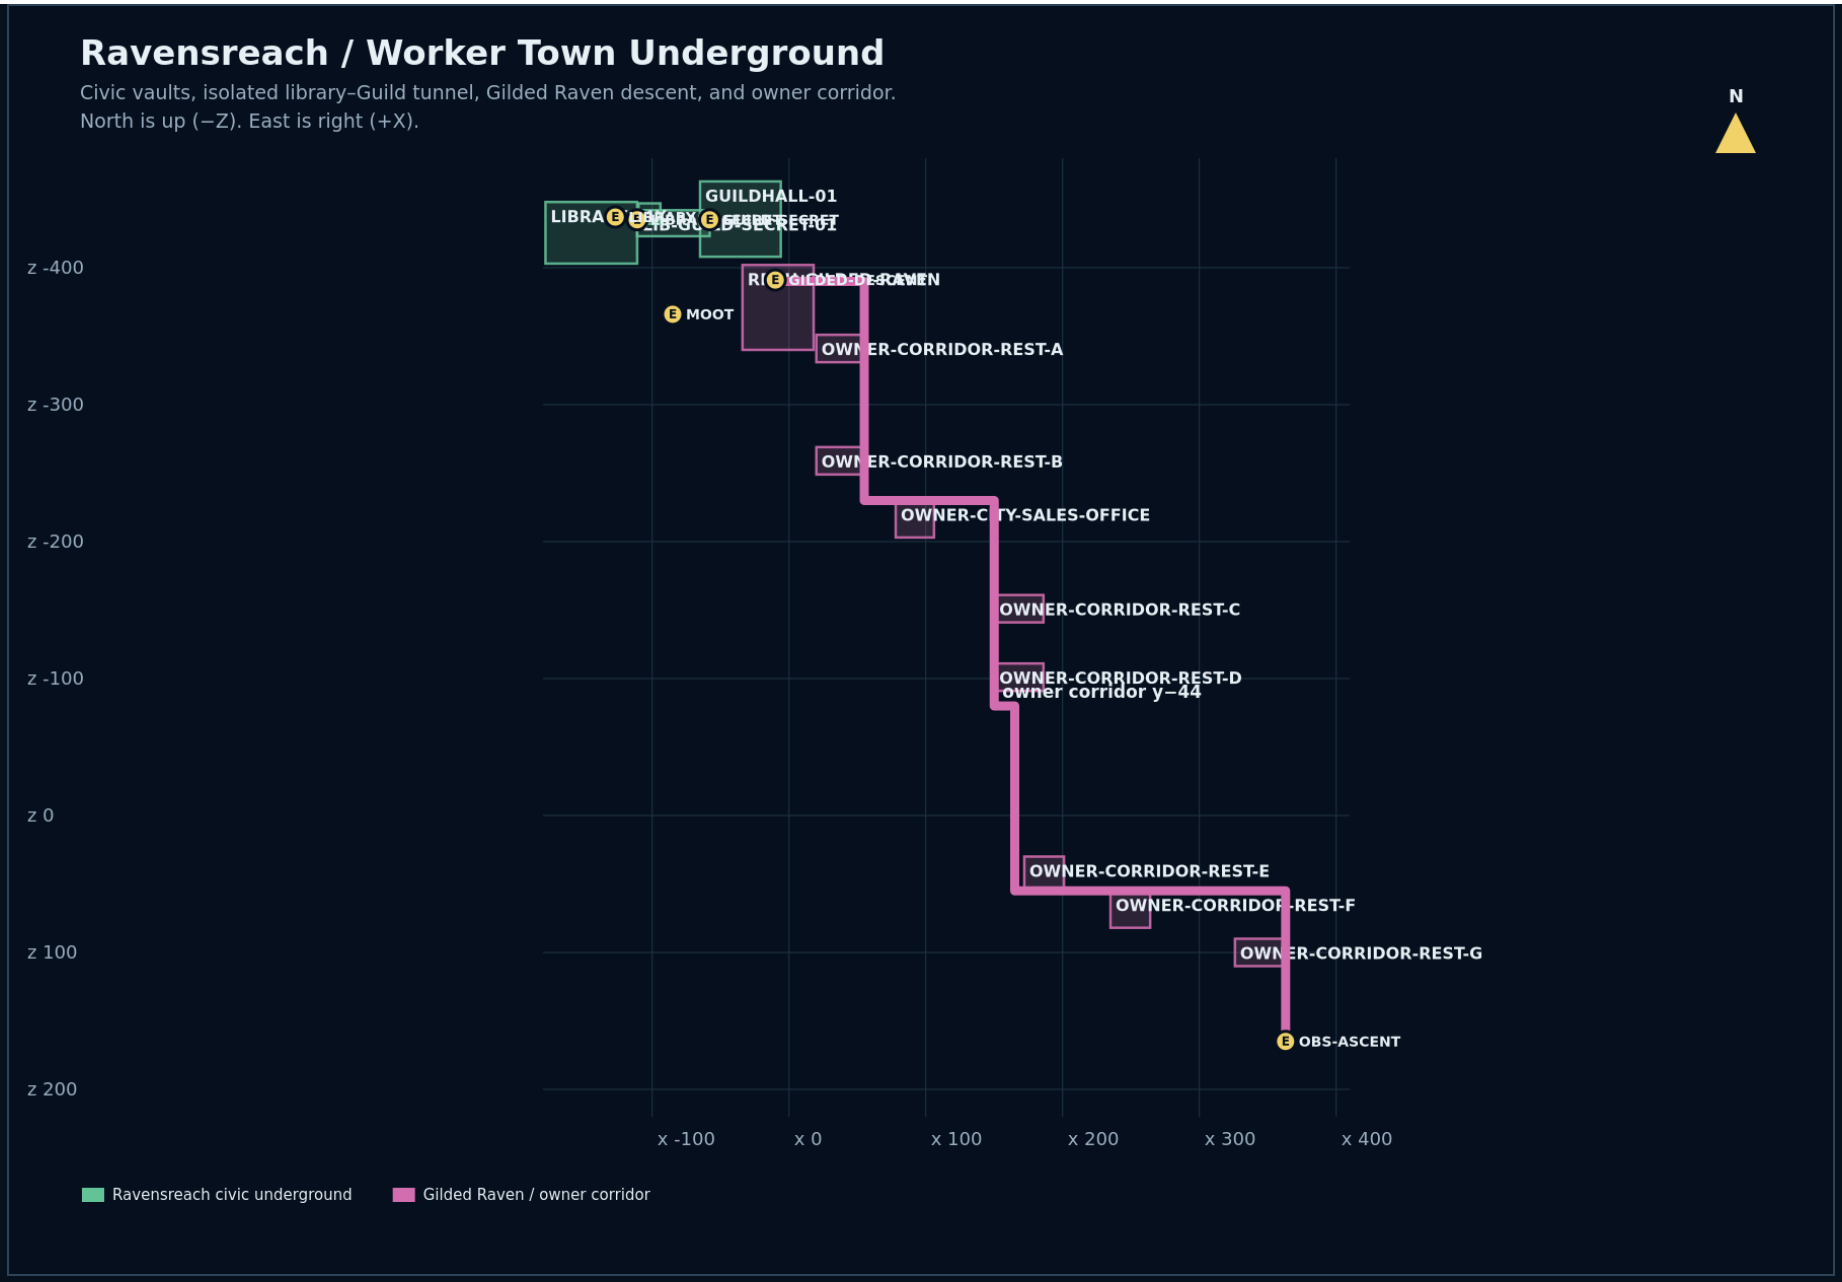

The complete cataloged Minecraft tunnel graph, including RR-Z5.

- North vehicle: N4 → T1a/T1b → Cavern A.
- South personnel: N3 → T2a/T2b → Cavern B.

- East: N5 → T3a/T3b → Cavern A.
- West utility: N6 → T4 → Cavern C.
- Internal C1/C2 corridors join caverns; RR-S1 joins RR-Z5.

MAP 04 · RAVENSREACH / WORKER TOWN

Civic vaults and the private owner corridor

Library/Guild isolation and the distinct Gilded Raven–Observatory owner route.

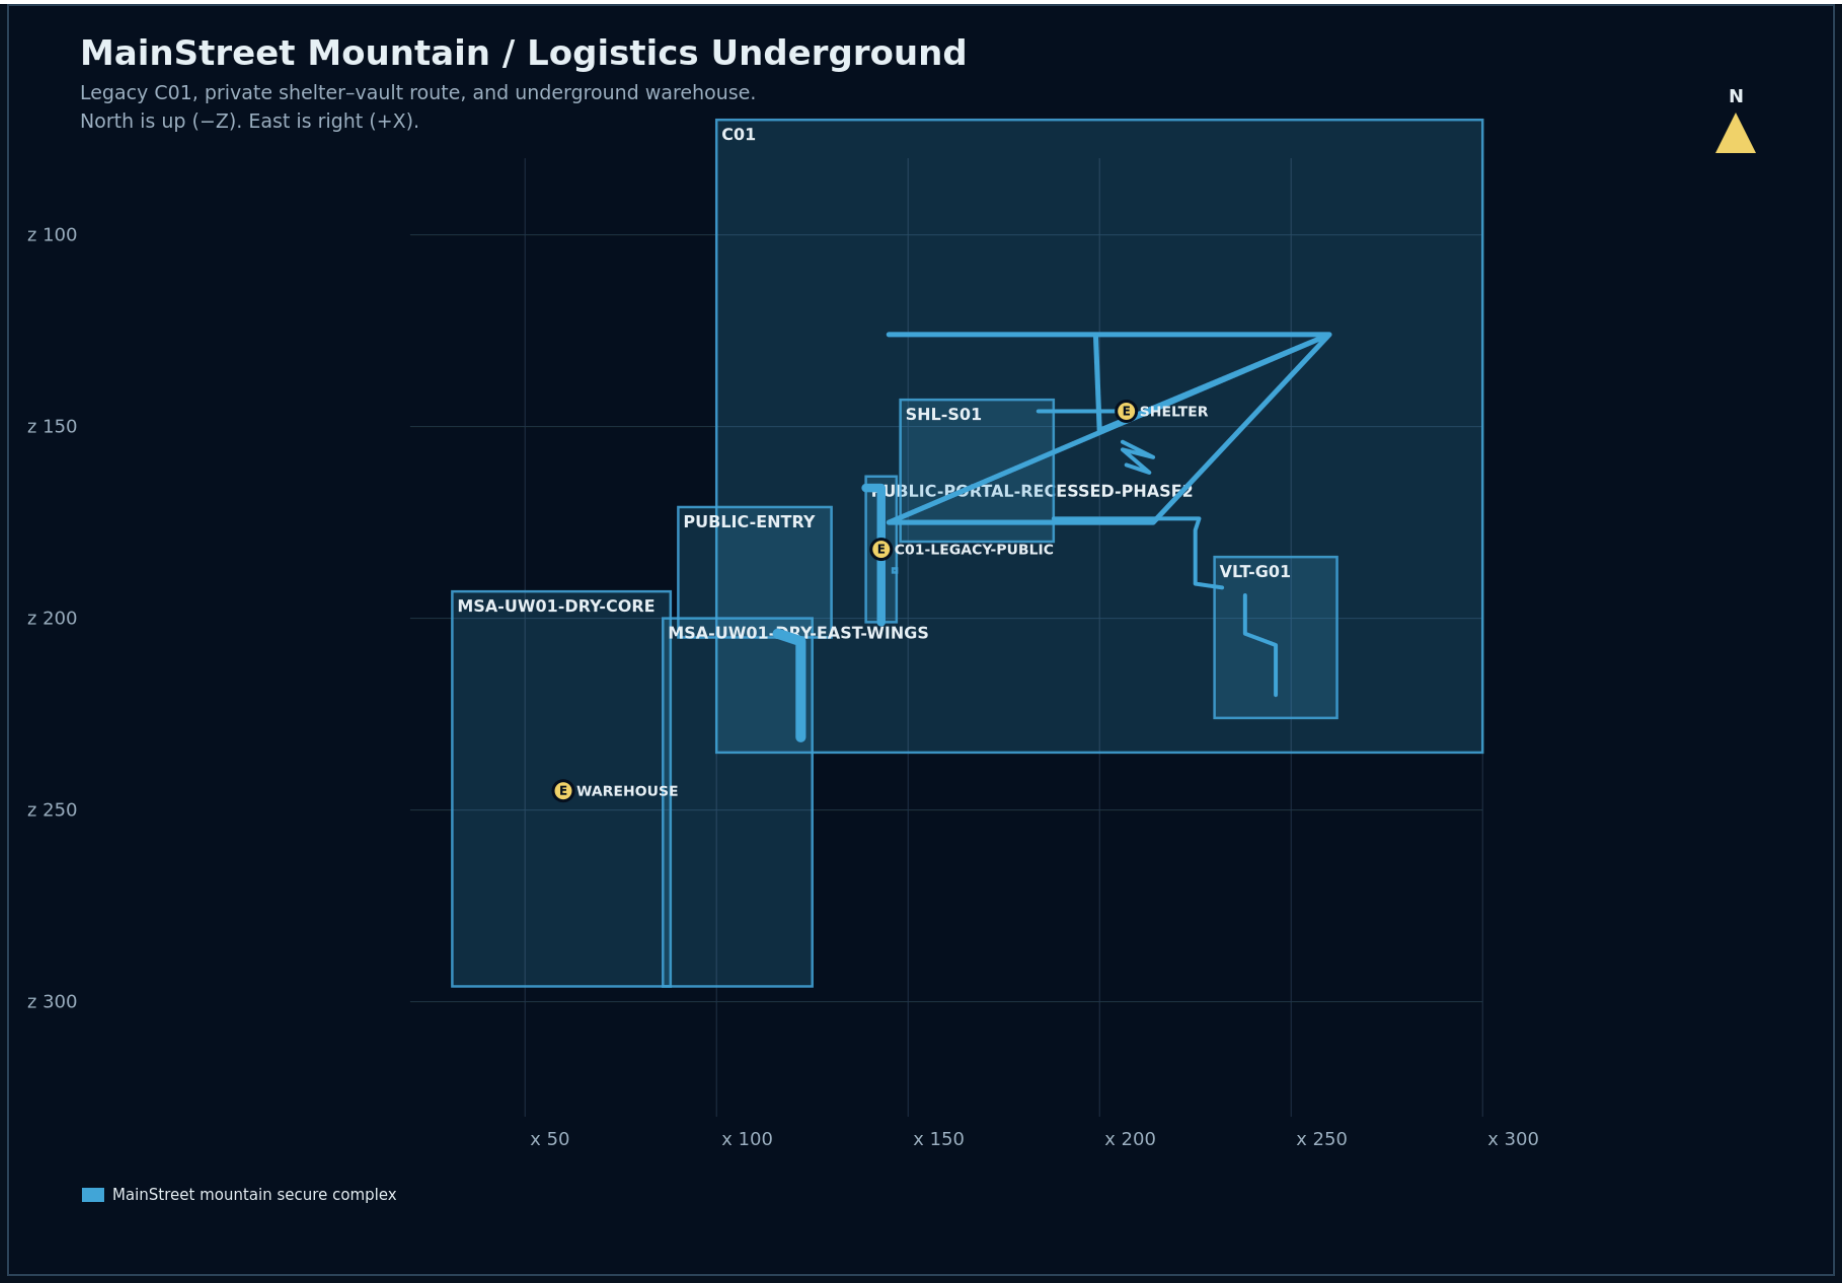

The library passage has exactly two endpoints and no third network branch. The owner corridor runs at y−44, serves seven rest suites and the Founders’ Gallery sales office, and climbs at both the Gilded Raven and Observatory ends. It is explicitly not T2b

and does not connect to Ravensgate.

MAP 05 · MAINSTREET

Legacy mountain complex, shelter/vault route, and warehouse

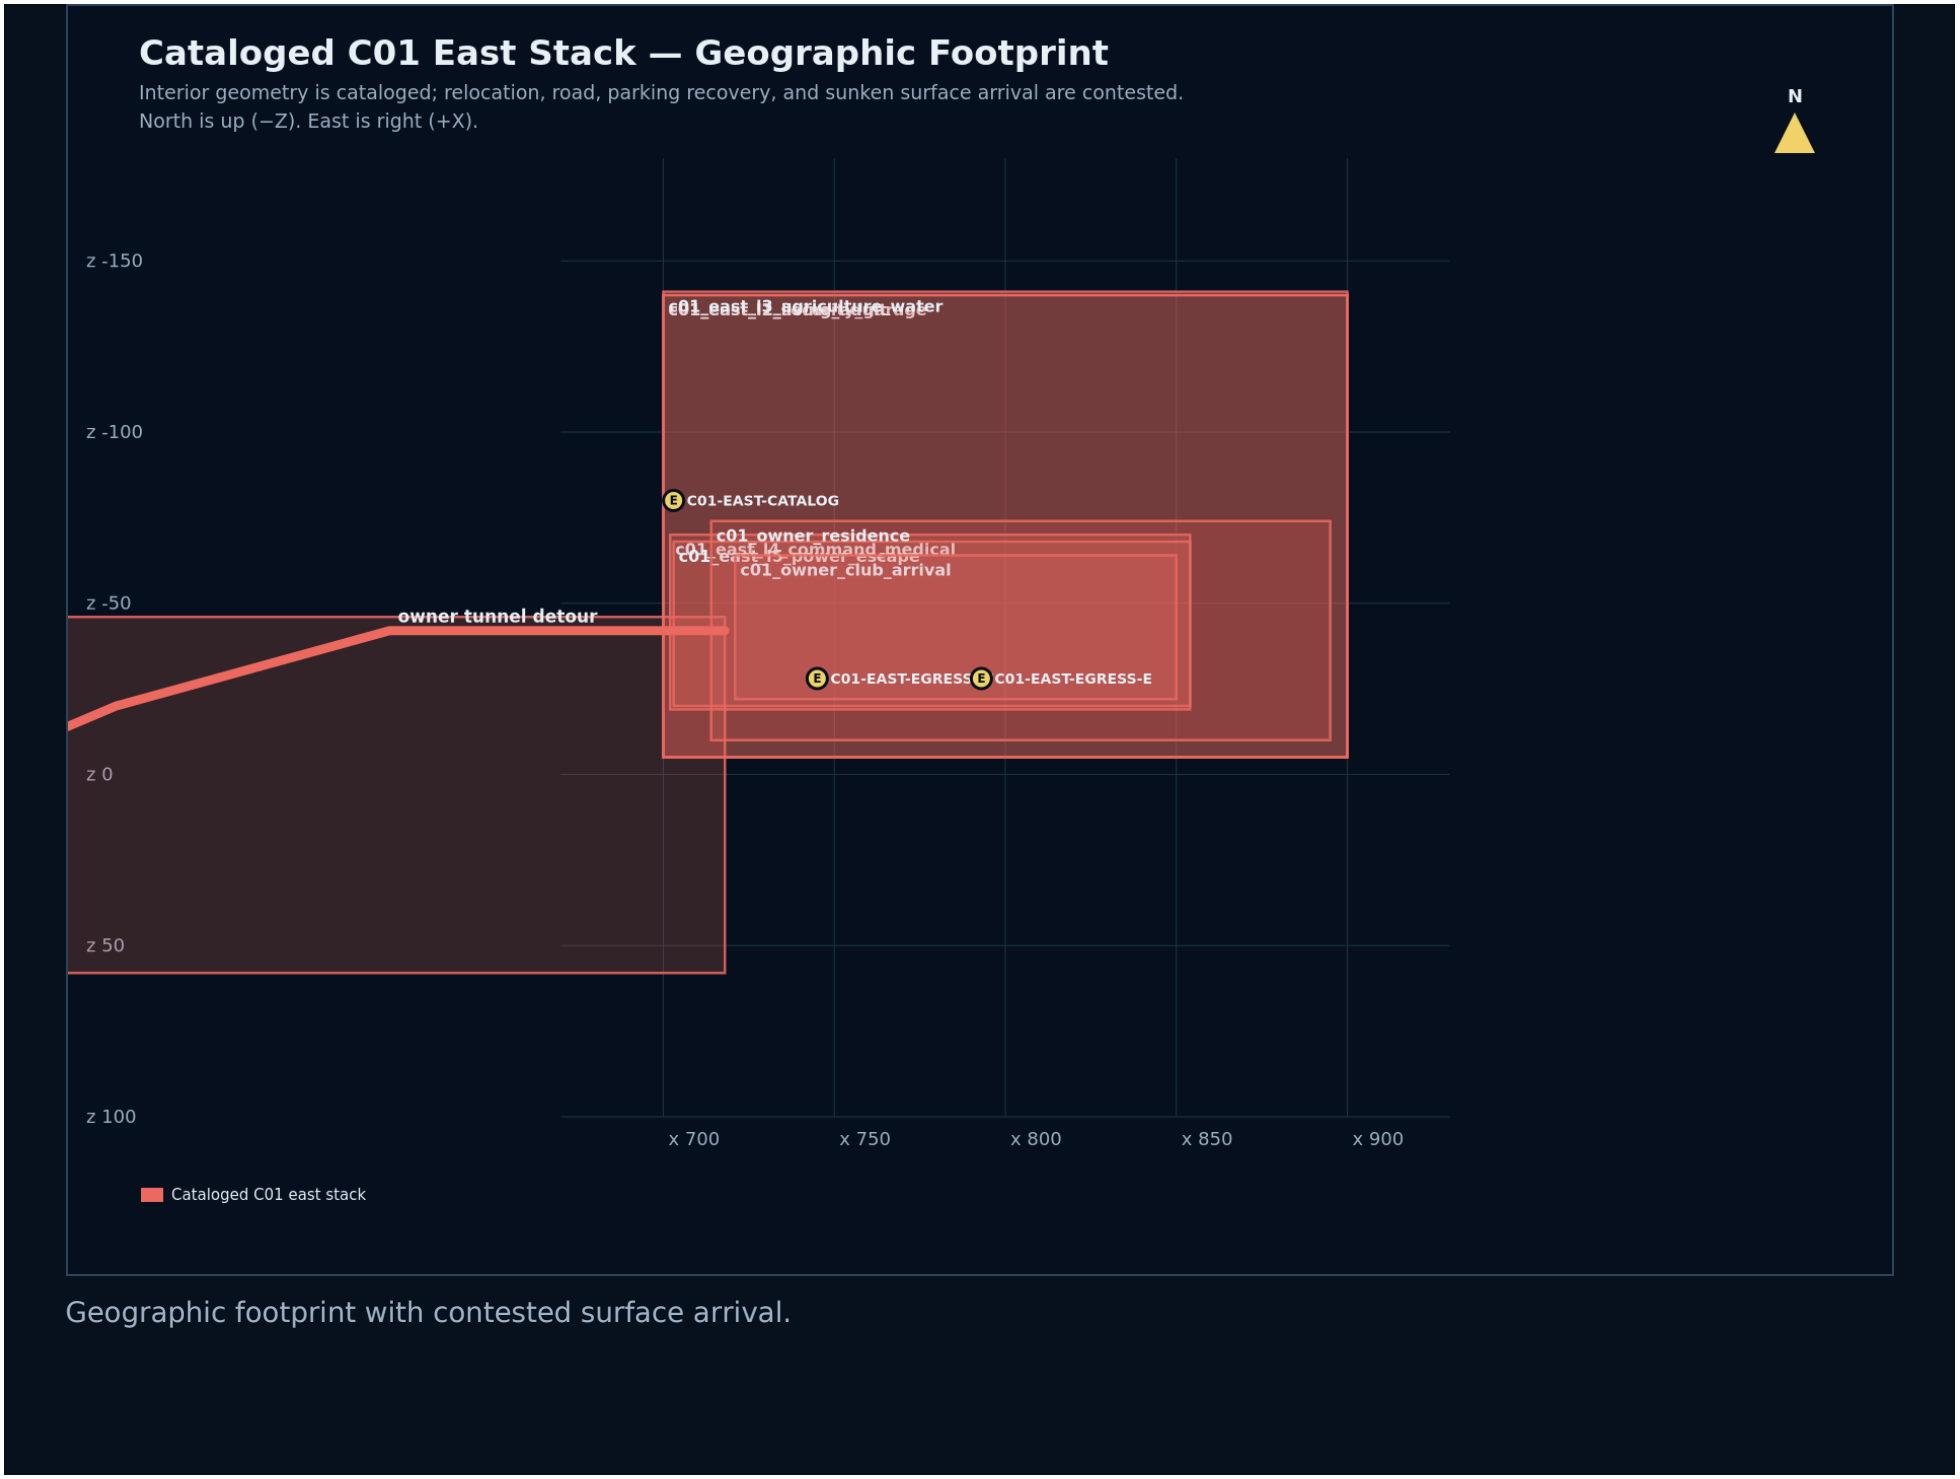

Separate MainStreet underground families; absence of a line means no verified connection.

The private shelter route starts at the penthouse safe room, descends to the mountain shelter, then continues to the three-level grand vault. UW01 is a logistics object with a dry core and east wings. The legacy C01 recessed portal remains mapped, but its

current through-route to L1 is unproven and must not be treated as a reliable arrival pending a new field repair/proof.

MAPS 06 + 11-18 · C01 EAST

Cataloged seven-level C01 stack

Geographic footprint with contested surface arrival.

Vertical relationship among all seven occupied levels.

The room graph contains 168 spaces, 165 nodes, and 181 edges. The public/adult living level has a bar/lounge, exhibition salon, viewing gallery, performer/service route, 24 private rooms, and five one-to-one rooms. The owner club has a theatre, backrooms,

12 private rooms, meeting rooms, dining, cinema, offices, stair, and lift. All descriptions are architectural and non-graphic.

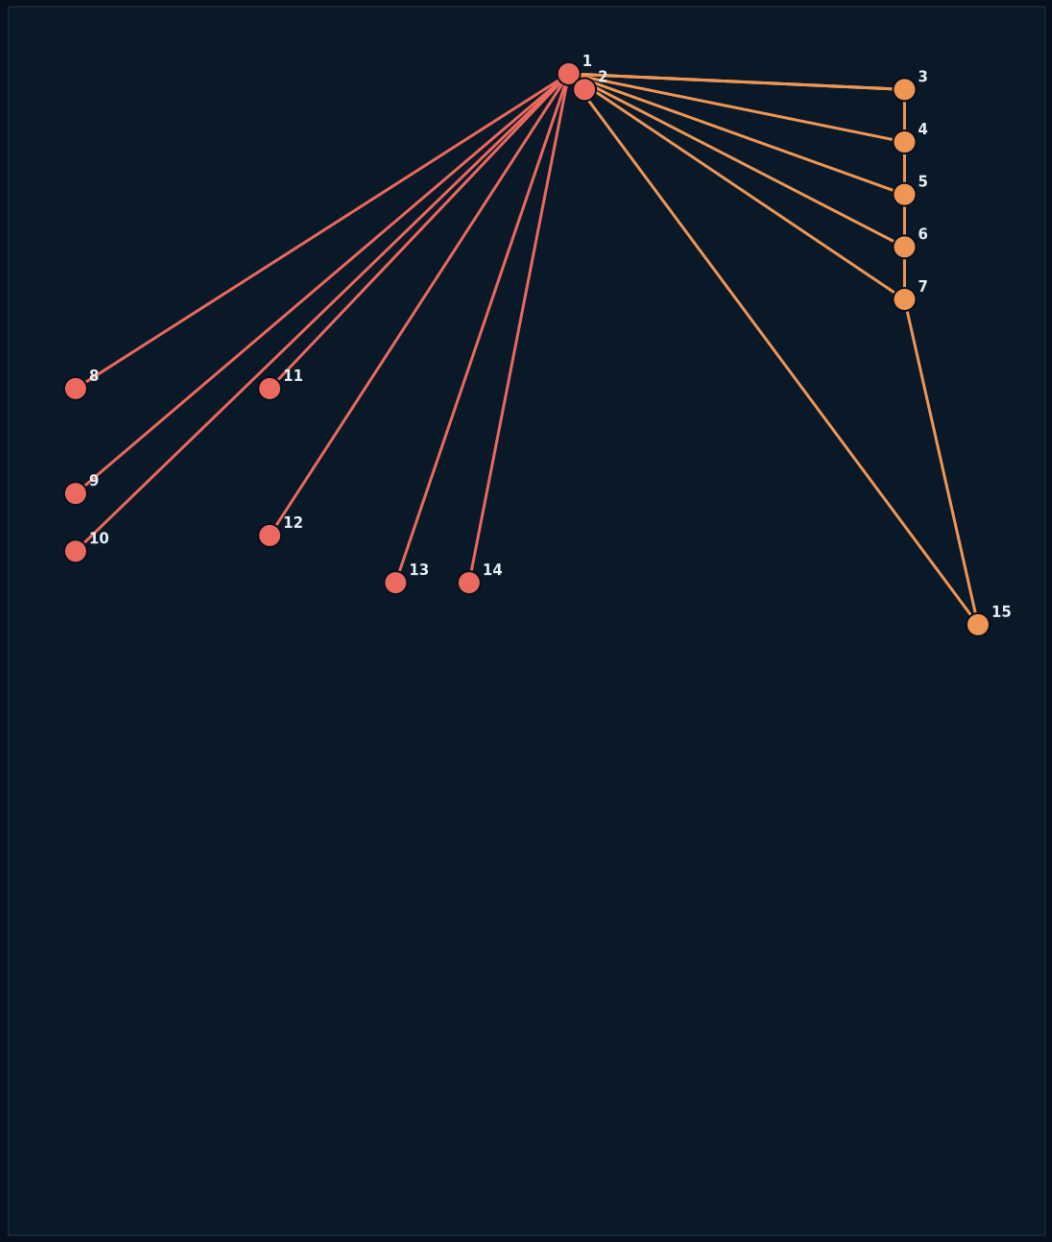

C01 EAST · LEVEL 1 OF 7

C01 L1 SECURITY GARAGE

16 cataloged spaces. The map uses numbered room nodes so the circulation graph remains readable at print scale.

C01 L1 SECURITY GARAGE

Cataloged C01 room graph at y≈42; north is up (−Z).

MAP 07 · WESTLIGHT

Below-grade theatre, club, basements, freight

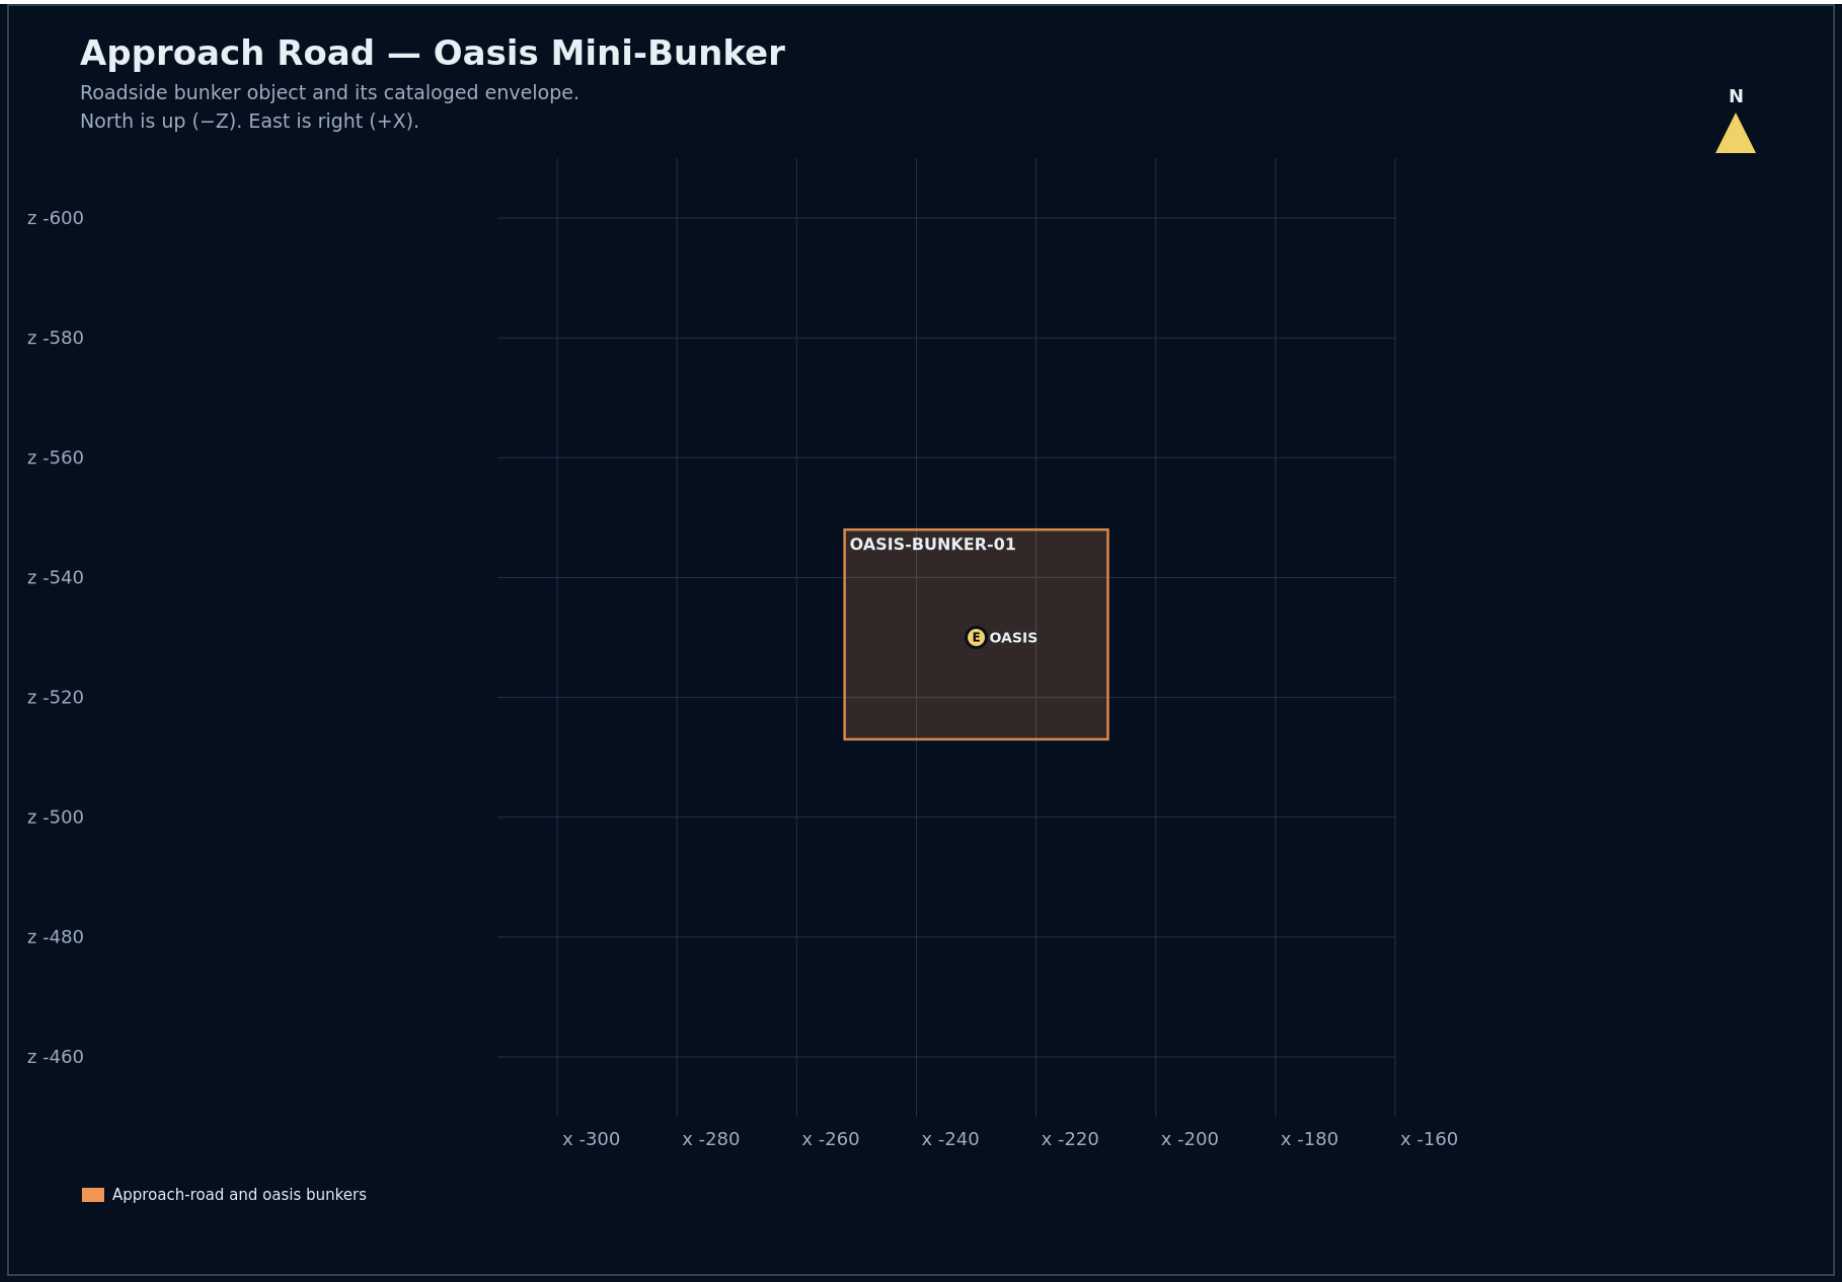

Westlight’s stacked venue and service family.

The public theatre descends through upper lobby/balcony, orchestra lobby/parterre, and lower lobby/backstage levels. The members club holds its lounge, bar/dance floor, landing, and private balcony below grade. Venue basement and freight records

complete the support layer.

MAP 08 · APPROACH ROAD

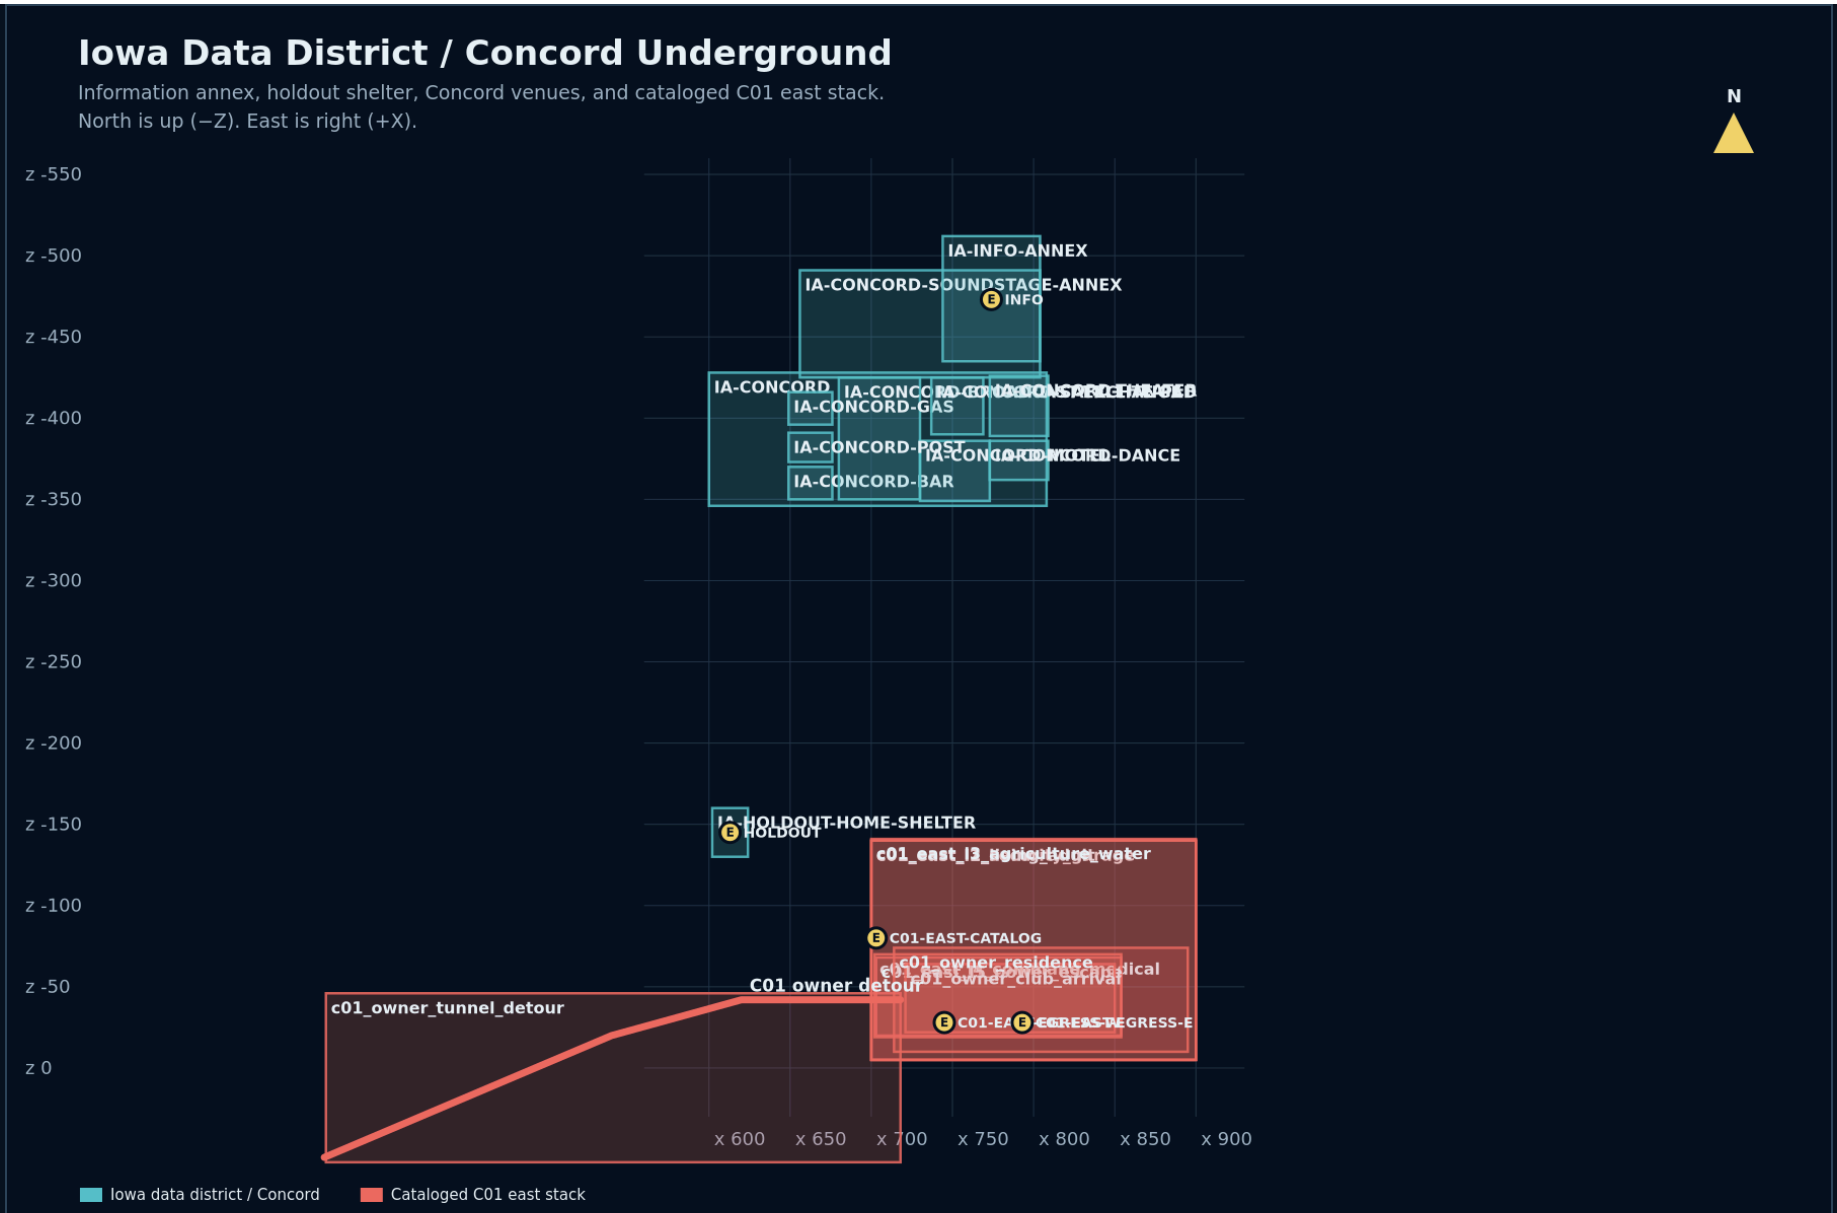

Oasis mini-bunker

The cataloged roadside bunker envelope near the approach corridor.

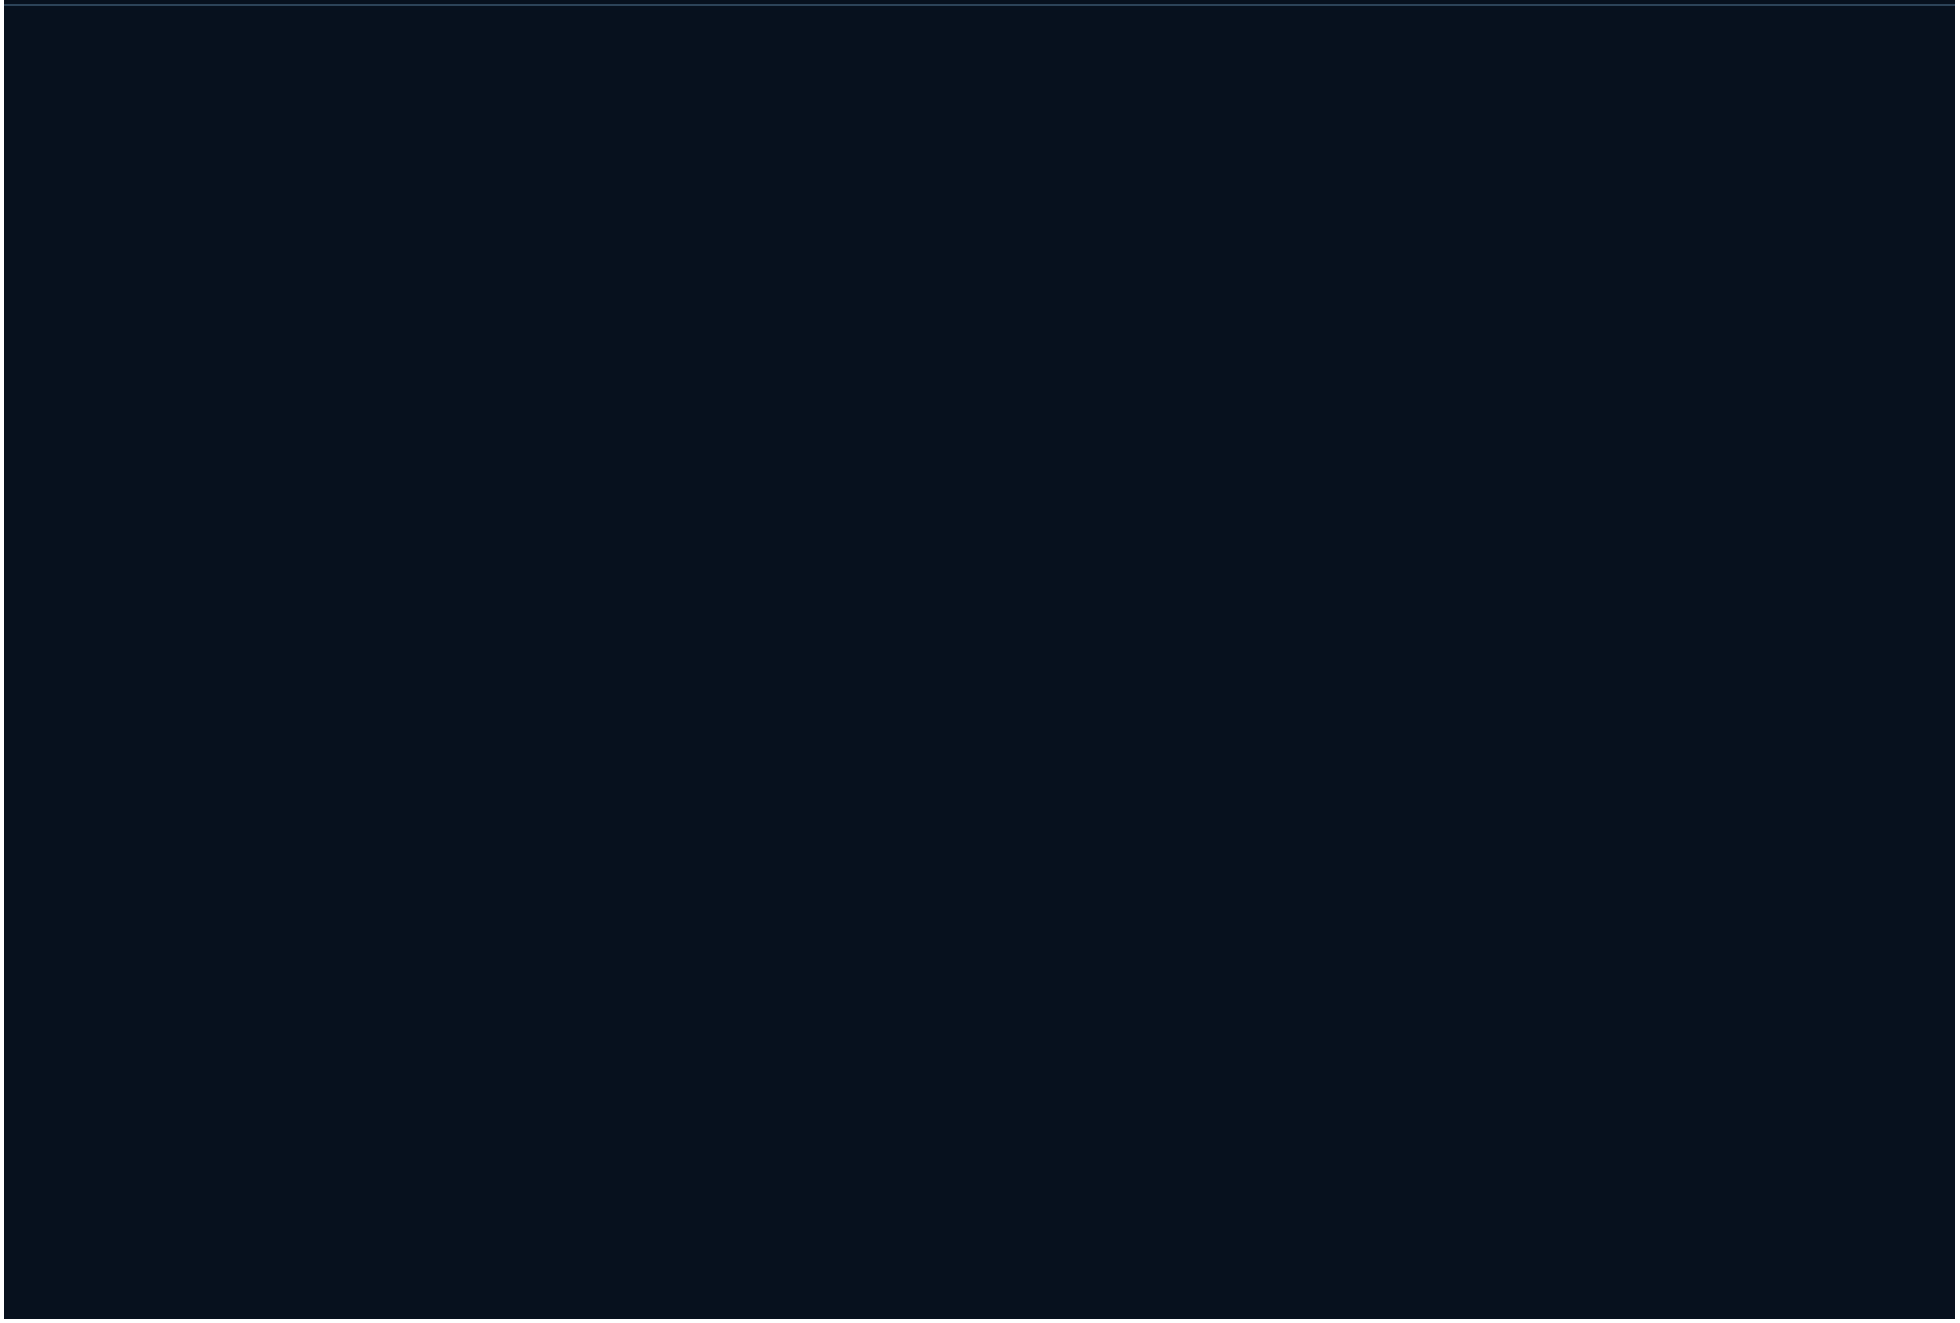

MAP 09 · IOWA / CONCORD

Information annex, home shelter, and nightlife venues

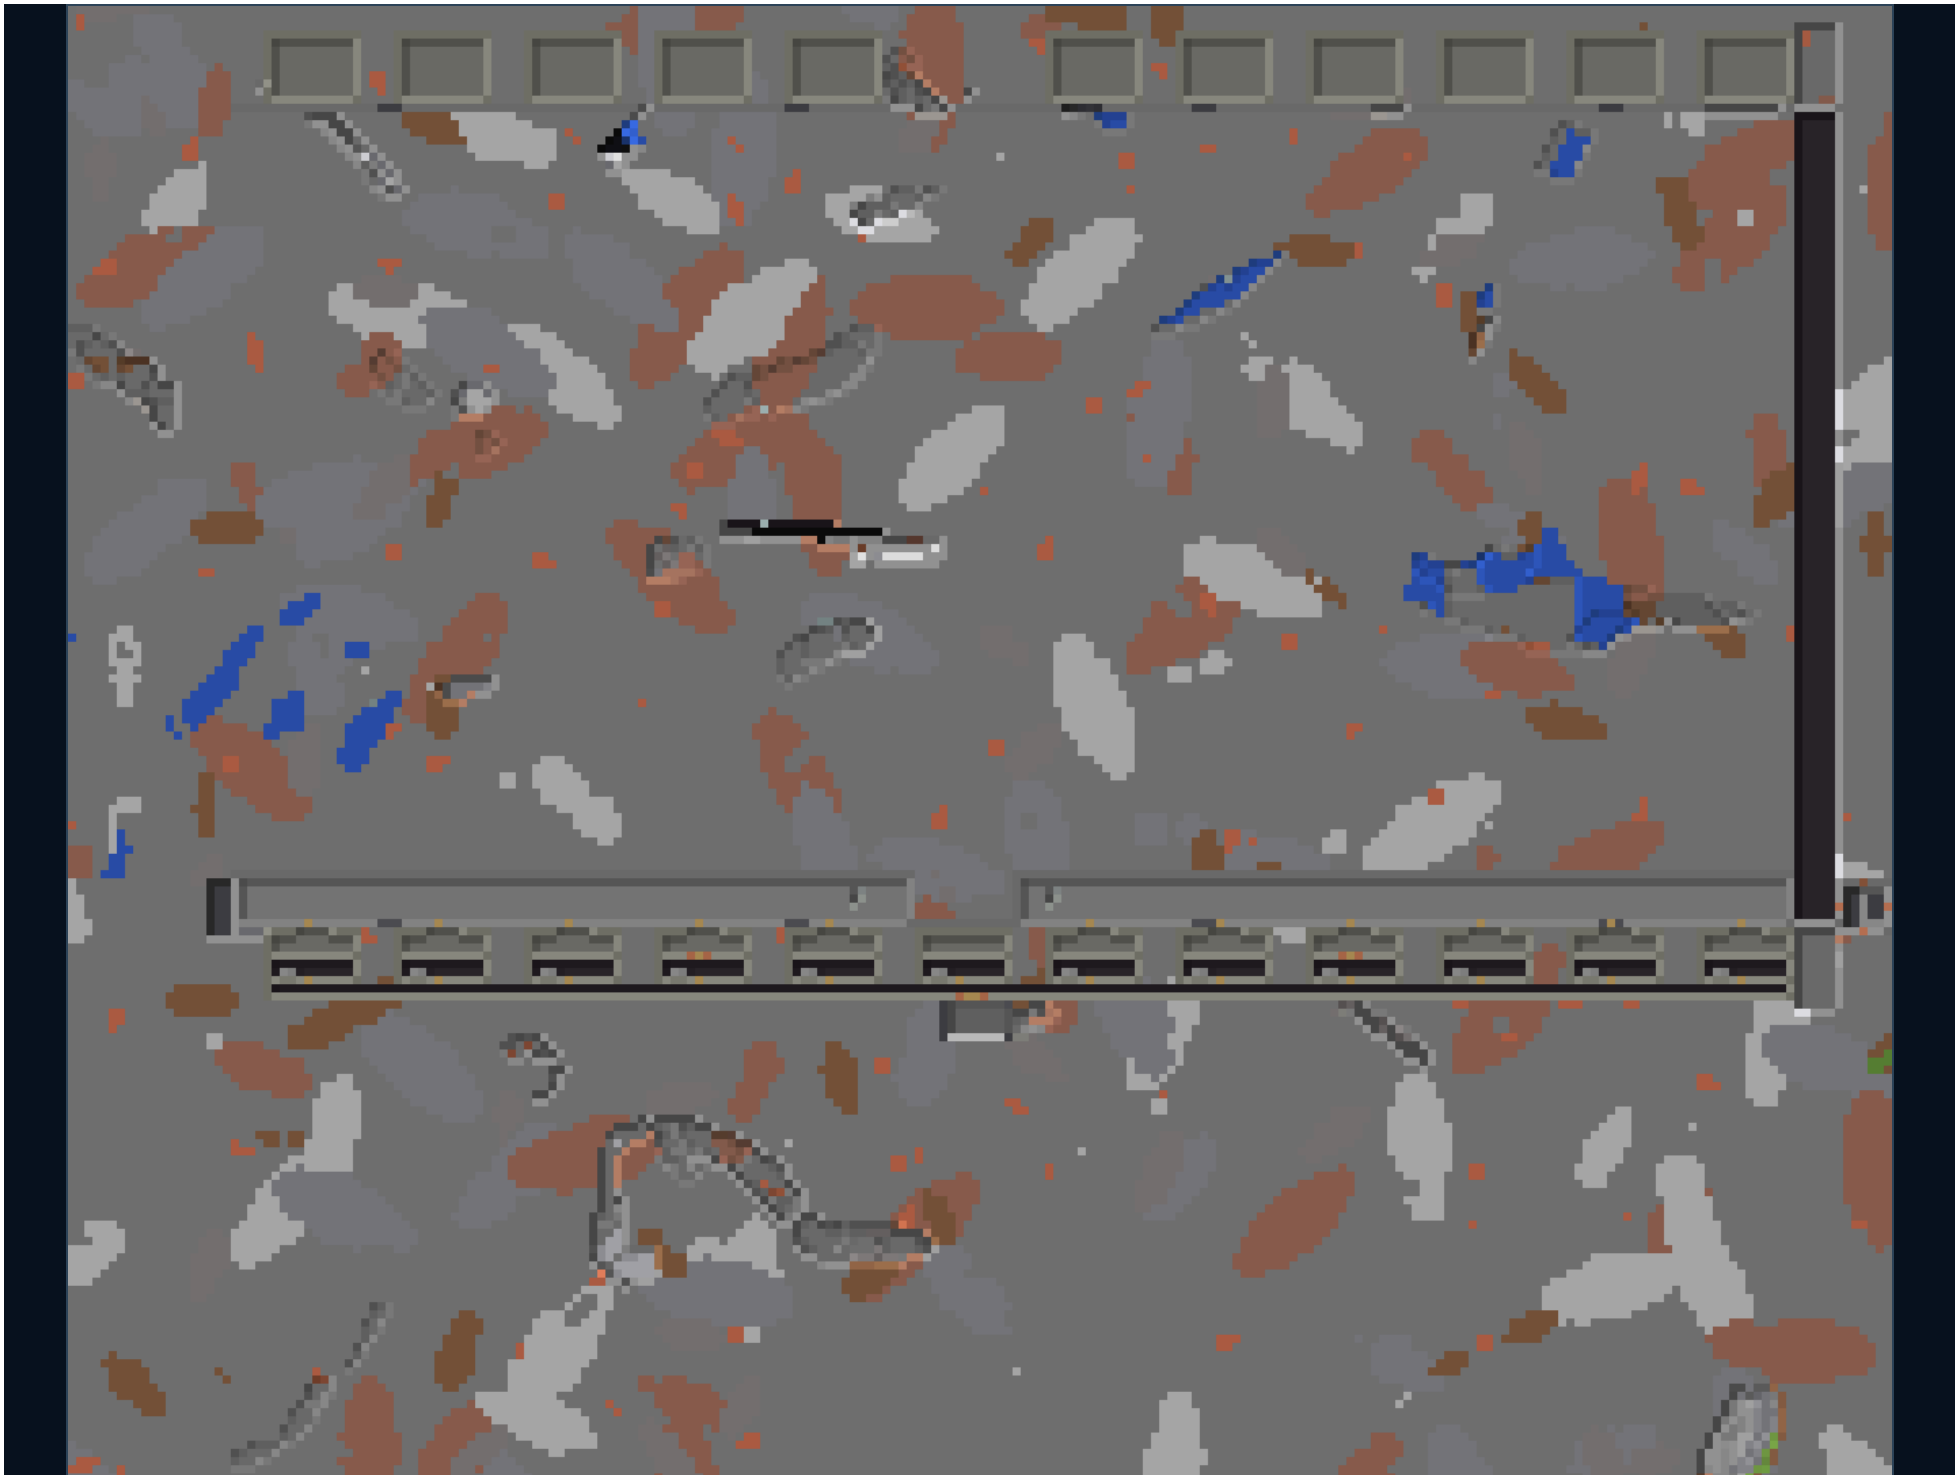

Separate controlled underground destinations across the data district and Concord.

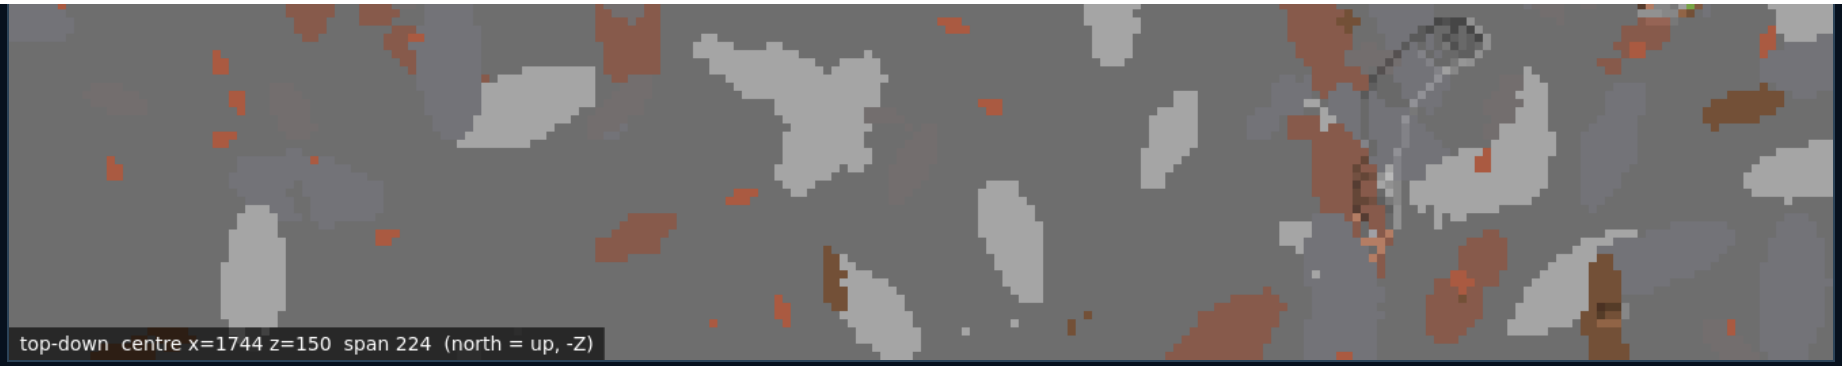

The information annex, holdout-home shelter, Concord bar/theatre, and cataloged C01 stack are separate sites. They are shown together for geographic orientation, not as a claimed connected tunnel system.

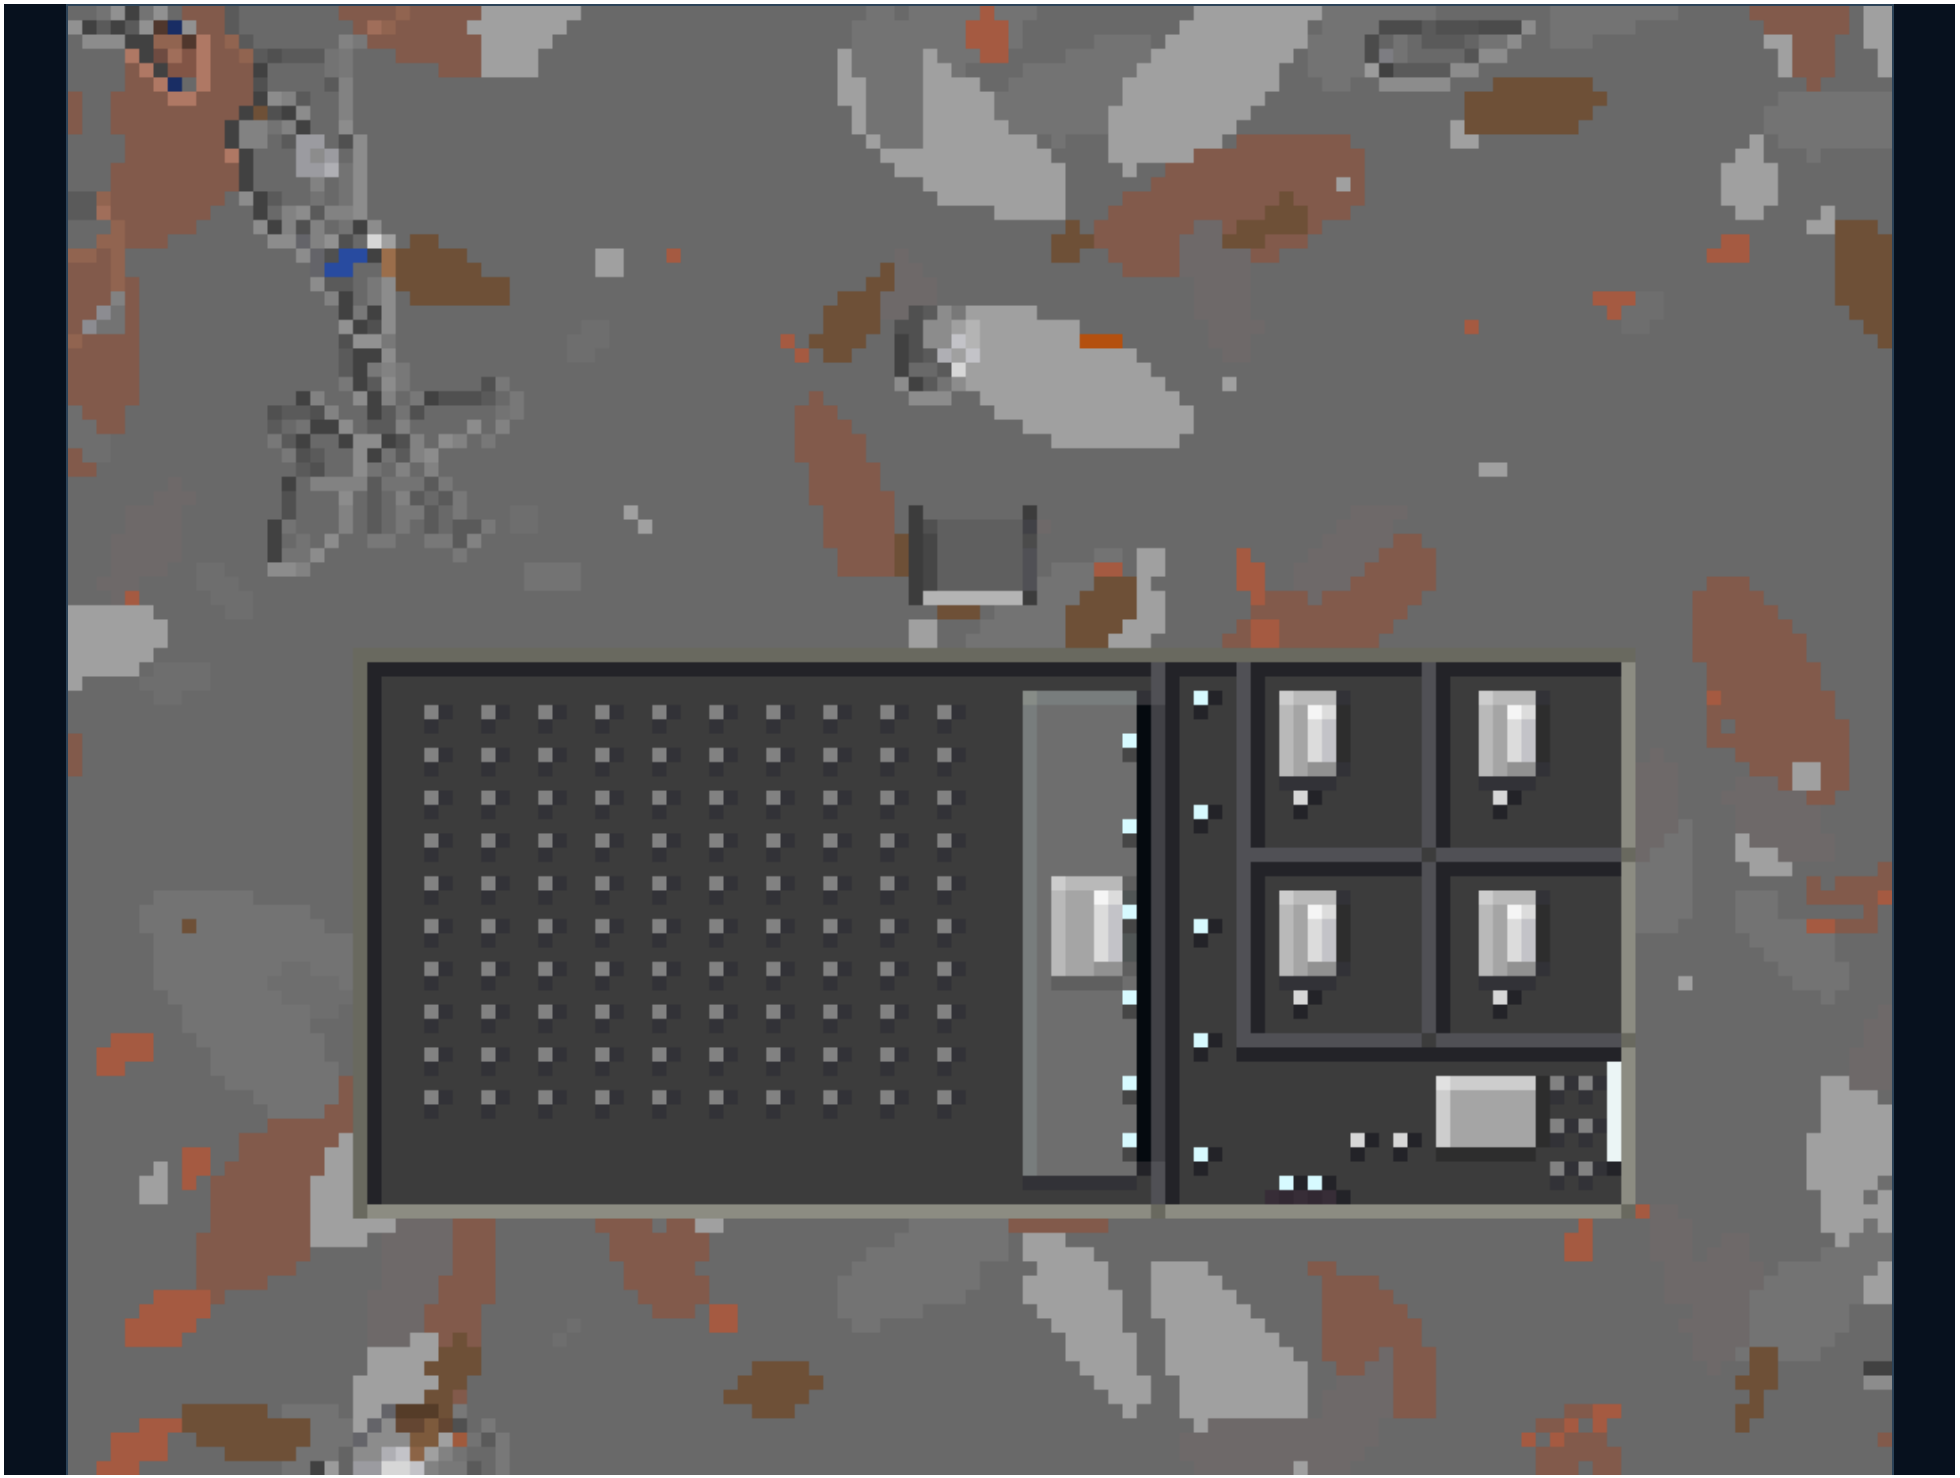

MAPS 19–20 · EMPTY EIGHT

Public gallery, staff boundary, restricted lower annex

R08AM current-post sectional view. The eleven south bays and gallery are public; the BOH behind the marked boundary is staff/service restricted.

Documentation-only lower-annex plan. The grand stair, theatre, lounge, cinema, and four adults-only suites are restricted and non-public.

Two exact PF08 stairs reach the public gallery. Only the S04 and S09 marked staff doors cross into the 372-cell maintained BOH spine, where all twelve room doors remain secured. Two further secured doors protect the seven-wide grand stair to the lower annex. S06 and every north bay remain capped. No exterior egress, accessibility, future rail, drainage, fire/service, ventilation, utility, or mechanism interface is opened.

VENUE INDEX

Bars, clubs, theatres, lounges, and adult-only rooms

This index intentionally uses neutral, non-graphic language. It includes below-grade venue records plus every database record whose identity is a bar, pub, taproom, lounge, club, theatre, dance space, adult room, salon, brew venue, or motel, so surface hospitality destinations are not silently missed.

FINAL SECTION · ENTRANCES

Every cataloged way into the underground

World-coordinate entrance and access-node map.

ID	Entrance / access	System	XYZ	Class	Leads to	Certainty
E-RR-N3	Raven Rock south personnel portal	Raven Rock / Site R	-150, 18, 285	personnel	RR-T2a → T2b → Cavern B	cataloged exact point
E-RR-N4	Raven Rock north vehicle portal	Raven Rock / Site R	0, 18, -285	vehicle	RR-T1a → T1b → Cavern A	cataloged exact point
E-RR-N5	Raven Rock east portal	Raven Rock / Site R	285, 18, -30	mixed	RR-T3a → T3b → Cavern A	cataloged exact point
E-RR-N6	Raven Rock west utility portal	Raven Rock / Site R	-290, 10, 5	utility	RR-T4 → Cavern C	cataloged exact point
E-RR-Z5	Raven Rock RR-Z5 surface headhouse	Raven Rock / Site R	200, 67, -15	stairs / shaft	15 switchback flights → RR-S1	cataloged structure centroid
E-C01-LEGACY-PUBLIC	Legacy MainStreet C01 recessed public portal	MainStreet mountain secure complex	143, 69, 182	public	dogleg connector → hangar / arena / lower operations	accepted legacy portal geometry
E-C01-EAST-CATALOG	Cataloged C01 east grand security entry	Cataloged C01 east stack	703, 42, -80	cataloged public interior arrival	L1 security entry → seven-level internal route graph	CONTESTED — surface road, relocation, and sunken arrival require field verification (ISSUE-002)
E-C01-EAST-EGRESS-W	Cataloged C01 east independent egress west control	Cataloged C01 east stack	745, 6, -28	owner / emergency	L5 power/escape level	deep internal egress node; surface endpoint not independently verified
E-C01-EAST-EGRESS-E	Cataloged C01 east independent egress east control	Cataloged C01 east stack	793, 6, -28	owner / emergency	L5 power/escape level	deep internal egress node; surface endpoint not independently verified
E-GILDED-DESCENT	Gilded Raven owner grand descent	Gilded Raven / owner corridor	-10, 67, -391	owner	theatre → y-44 owner corridor	authored and post-release cataloged
E-OBS-ASCENT	Observatory east owner ascent	Gilded Raven / owner corridor	363, 112, 165	owner	owner corridor → owner estate arrival gallery	authored and post-release cataloged
E-LIBRARY-SECRET	Library concealed archive-tunnel endpoint	Ravensreach civic underground	-111, 60, -435	concealed civic	library → isolated archive tunnel → Guild Hall	bounded endpoint; exact door should be read in-world
E-GUILD-SECRET	Guild Hall concealed archive-tunnel endpoint	Ravensreach civic underground	-58, 60, -435	concealed civic	Guild Hall → isolated archive tunnel → library	bounded endpoint; exact door should be read in-world
E-MOOT	Moot Hall vertical underground circulation	Ravensreach civic underground	-85, 98, -366	building-contained stairs	surface hall → B1/B2 → sanctum	cataloged circulation envelope; use Moot Hall entrance in-world
E-LIBRARY	Civic Library vertical underground circulation	Ravensreach civic underground	-127, 110, -437	building-contained stairs	entrance hall → stacks → archives → rare-book vault	cataloged circulation envelope; use library entrance in-world
E-WL-THEATRE	Westlight below-grade theatre circulation	Westlight below-grade venues	-360, 50, -555	public venue	upper lobby → parterre → lower lobby/backstage	cataloged building centroid; follow venue doors and stairs

ID	Entrance / access	System	XYZ	Class	Leads to	Certainty
E-WL-CLUB	Westlight members club circulation	Westlight below-grade venues	-408, 44, -558	members	club landing → lounge / bar / dance floor	cataloged building centroid; follow venue doors and stairs
E-OASIS	Approach-road oasis mini-bunker	Approach-road and oasis bunkers	-230, 69, -530	roadside	oasis surface arrival → bunker interior	cataloged object centroid; surface threshold requires in-world reading
E-WAREHOUSE	MainStreet underground warehouse dry core	MainStreet mountain secure complex	60, 74, 245	service / logistics	MainStreet service area → dry core / east wings	cataloged object centroid; exact ramp/door requires in-world reading
E-SHELTER	Private mountain shelter via penthouse safe-room stair	MainStreet mountain secure complex	207, 104, 146	private	penthouse safe room → shelter → grand vault	cataloged route endpoint
E-INFO	Iowa underground information / continuity annex	Iowa data district / Concord	774, 80, -473	controlled	data campus → underground annex	cataloged object centroid; exact surface door requires in-world reading
E-HOLDOUT	Holdout-home shelter access	Iowa data district / Concord	613, 72, -145	private residence	holdout home → private shelter	cataloged object centroid; exact hatch/door requires in-world reading
E-EE-PF08-WEST	Empty Eight west PF08 internal stair	Combined Zones / Empty Eight	1728, 42, 153	public internal	PF08 → west public gallery segment → vacant south bays	current R08AM snapshot; R08AL exact half-step route accepted
E-EE-PF08-EAST	Empty Eight east PF08 internal stair	Combined Zones / Empty Eight	1752, 42, 153	public internal	PF08 → east public gallery segment → vacant south bays	current R08AM snapshot; R08AL exact half-step route accepted
E-EE-BOH-S04	Empty Eight S04 gallery-to-BOH staff door	Combined Zones / Empty Eight	1709, 50, 154	restricted staff/service	public gallery → maintained BOH spine	current R08AM snapshot; secured public/staff boundary
E-EE-BOH-S09	Empty Eight S09 gallery-to-BOH staff door	Combined Zones / Empty Eight	1789, 50, 154	restricted staff/service	public gallery → maintained BOH spine	current R08AM snapshot; secured public/staff boundary
E-EE-ANNEX	Empty Eight secured lower-annex grand stair	Combined Zones / Empty Eight	1743, 50, 159	restricted adults-only	BOH → seven-wide grand stair → lower theatre/private-club annex	current R08AM snapshot; connected route accepted behind two secured doors

> Centroid-labeled entrances must be read against signs and doors in-world. C01 east’s public/egress nodes are not proof of the missing road or surface portal. Ravensgate remains sealed and is not an entrance.

APPENDIX A

Complete underground feature inventory

298 selected world-database records. Aliases and parent/child records are retained because they carry different room, route, media, or provenance detail.

ID	Name	System	Kind	Y	Status	Source
CZ-R07-B03-NORTH-PORTAL-COLLAR	Show the accepted north stone-brick portal collar and preserved route aperture.	Combined Zones / Empty Eight	terminal_media_feature	167.5..167.5	complete	data/exports/combined-zones-r13-terminal-media-accepted-20260822T062000Z/01-cz-r07-b03-north-portal-collar.png
CZ-R07-B03-SOUTH-PORTAL-COLLAR	Show the accepted south collar as the matching architectural endpoint.	Combined Zones / Empty Eight	terminal_media_feature	167.5..167.5	complete	data/exports/combined-zones-r13-terminal-media-accepted-20260822T062000Z/02-cz-r07-b03-south-portal-collar.png
CZ-R08-EE-R-N07-CAPPED-SHELL	Document a source-difficult retail shell after exact wet extraction and closed-shell lining.	Combined Zones / Empty Eight	terminal_media_feature	50.5..50.5	complete	data/exports/combined-zones-r13-terminal-media-accepted-20260822T062000Z/04-cz-r08-ee-r-n07-capped-shell.png
CZ-R08-EMPTY-EIGHT-CAPPED-RETAIL-GALLERIAS	Inventory the accepted north and south capped retail-shell bands in one overhead frame.	Combined Zones / Empty Eight	terminal_media_feature	50.5..50.5	complete	data/exports/combined-zones-r13-terminal-media-accepted-20260822T062000Z/03-cz-r08-empty-eight-capped-retail-gallerias.png
CZ-R08-EMPTY-EIGHT-EG-B-PASSIVE-REFUGE-CORE	Show the passive internal wayfinding node without implying egress or mechanism commissioning.	Combined Zones / Empty Eight	terminal_media_feature	48..48	complete	data/exports/combined-zones-r13-terminal-media-accepted-20260822T062000Z/05-cz-r08-empty-eight-eg-b-passive-refuge-core.png
CZ-R09-B07-BOUNDED-UPPER-INSPECTION-CIRCULATION	Show the bounded upper B07 route retained closed-headhouse context without implying visibility of the full underground stair.	Combined Zones / Empty Eight	terminal_media_feature	72..72	complete	data/exports/combined-zones-r13-terminal-media-accepted-20260822T062000Z/06-cz-r09-b07-bounded-upper-inspection-circulation.png
CZ-R10-B03-INSTITUTIONAL-CONTACT-SEQUENCE	Record the long passive B03 institutional inspection corridor and its material rhythm.	Combined Zones / Empty Eight	terminal_media_feature	167.5..167.5	complete	data/exports/combined-zones-r13-terminal-media-accepted-20260822T062000Z/07-cz-r10-b03-institutional-contact-sequence.png
CZ-R12-B09-BOUNDED-SHUTTLE-TERMINAL-BAY	Document the bounded maintenance-shuttle terminal bay in its accepted fail-closed parked block poststate.	Combined Zones / Empty Eight	terminal_media_feature	131.2..131.2	complete	data/exports/combined-zones-r13-terminal-media-accepted-20260822T062000Z/10-cz-r12-b09-bounded-shuttle-terminal-bay.png

METHOD / SOURCES

Evidence and limitations

- World feature database opened read-only: `data/world-map.db`.
- Accepted terminal snapshot referenced: `data/worldsnap-r08am-post-20260822T161818Z/region`.
- Current 22-route normal-walk audit: `data/world-review/underground-navigation-r08am-20260822/current-route-qa.json` (19 pass, 3 unproven).
- Empty Eight public/staff evidence: `data/world-review/combined-zones-r08al-live-20260822T155850Z/r08al-post-release-qa.json`.
- Empty Eight restricted-annex evidence: `data/world-review/combined-zones-r08am-live-20260822T161818Z/r08am-post-release-qa.json`.
- C01 graph: `docs/redevelopment/2026-07-28-town-expansion/c01-bunker-classification-manifest.json`.
- Owner route: `docs/redevelopment/2026-07-28-town-expansion/worker-town-gilded-raven-theater-owner-tunnel-coordinate-schedule.json`.
- Library/Guild isolation: `docs/redevelopment/2026-07-28-town-expansion/pavilion-east-grounds-and-ravensgate-exclusion-coordinate-schedule.json`.
- Images are accepted existing captures copied byte-for-byte; their original path and SHA-256 are in `screenshot-manifest.json`.
- The complete machine-readable inventory, maps, entrances, provenance, and hashes are in `underground-inventory.json`; classifications and source bindings are separately available in `underground-access-audit.json`.
- No world command, RCON request, bot movement, database write, or live server mutation was made.
